NO. 43

Bad Man to Die.

James Ellis, convicted of the murder of Magistrate C. J. Beatty, of Burnside, will pay the penalty for his crime in the electric chair at Eddyville November 22. In signing the death warrant Governor McCreary made the statement that more men and women had expressed themselves in favor of execution in this case than any other that had come before him as Governor.

Ellis, who had been a Deputy Sheriff, conducted a soft drink stand just outside Burnside, where he was charged with selling liquor. The town authorities had no jurisdiction, so Magistrate Beatty moved from Greenwood to Burnside and issued warrants for Ellis' arrest.

Fearing a personal encounter if he sent his constable, W. F. Heath, Beatty deputized a man named Helton to serve the warrant. The evidence at the trial was to the effect that Helton found Ellis and both got drunk.

They entered Beatty's office just as Beatty was making out warrants for the arrest of both of them for disorderly conduct, and Constable Heath was waiting to serve the warrants. As soon as the two entered shooting began, and when the smoke cleared away Beatty was dead among his unfinished warrants and Heath was on the floor breathing his last. Neither had drawn a gun. Ellis and Helton were seen to run out, carrying revolvers. Both were convicted.

Kentucky Democratic State Committee has sent \$28,000 to the National Committee for use in the Wilson and Marshall campaigning, and is the first State to pay its assessment, which was \$25,000. It has sent \$3,000 more than was asked.

Judge Hardwick to Move.

Hon. John Hardwick, of Stanton, will come to this city to reside in the near future, on account of the excellent school advantages and also to practice law. He is at present serving Powell county as County Judge. He will erect a beautiful new residence here. — Winchester Democrat.

This is news to us, and we hope it is a mistake, as Powell county has already given to Clark county too many good citizens like Judge Hardwick and can ill afford to be any further depleted of such citizens.

Dies Before Trial.

Ben R. McCann, a former Lexington policeman is dead at Lexington. McCann shot and badly wounded Sheriff Dan Scott last spring, and had never been tried for the offense. Scott had given McCann, previous to his shooting, a terrible beating and McCann now has a suit pending against Scott in which he asks \$20,000 damages for this drubbing.

Extension of Dry Territory

With the passing of the saloons from Mt. Sterling when the effect of the recent local option election is enforced, that will make a gap of dry territory along the C. & O. railroad, from Ashland to Winchester, a distance of more than one hundred miles.

Cantrill Spoke Here.

The Hon. J. C. Cantrill, Democratic nominee for Congress in this district, spoke at Stanton Saturday afternoon and in this city at night. He was greeted by good crowds and interested hearers. He is a fine speaker and made a good impression on our voters.

AGRICULTURAL EXTENSION.

Free Seed Testing For Kentucky.

It may not be generally known to farmers and others in Kentucky that the Kentucky Agricultural Experiment Station is well equipped to test samples that may be submitted with a view to learning their quality, either as to purity or germination. A new laboratory for this work has been planned and is now nearing completion. When our incubators and other appliances are established it will be one of the most complete in this country.

The Station has already won a reputation for work of this sort not only in this country, but in Europe, and those sending samples can be assured that they will be tested well and as promptly as our facilities will permit. Samples will be examined in the order in which they are received.

To get fair tests it is necessary that the sample be taken from a bulk lot after a thorough mixing of seeds. Samples of red clover, sapling clover, alsike clover, alfalfa, orchard grass, English bluegrass and rye grass should contain two ounces each. Samples of Kentucky bluegrass, Canada bluegrass, red top and timothy should weigh one ounce each. The samples should be put in a stout paper envelope, not in ordinary correspondence envelopes because they are easily broken in the postoffice and let the seeds escape. Put your complete address, plainly written, on each envelope sent us and forward to the Division of Entomology and Botany, Kentucky Agricultural Experiment Station, Lexington, Ky. In writing to us always state whether both purity and germination tests are wanted.

H. Garman, Head of Division of Entomology and Botany, Kentucky Experiment Station, Lexington, Ky.

Kentucky Leads in Jersey Cattle.

Statistics show that in the State of Kentucky there are more registered Jersey cattle than in any other State in the Union. The South is the natural and logical dairy section of America. Transportation and marketing facilities for milk and butter are excellent and the man with small capital can find a pleasant and profitable business in running a dairy and building up a dairy herd. The cost of milk and butter production in the South is by natural conditions much less than in the North and West, where housing and feeding during the long winters makes a heavy cost against the nearly all the year around grazing of this section. — Inland Farmer.

Another Railroad.

It is now reported that the L. N. railroad will build a road from some point on the L. & A. line into Jackson county to develop coal and timber lands of that county.

We are making special and attractive prices on Boys' Clothing. Mrs. J. W. Williams.

Taken to Winchester.

Sheriff of Breathitt county, T. P. Hudson with two deputies and five guards, passed through this city Tuesday evening on the train having in charge the following prisoners all accused of conspiracy in the murder of ex-Sheriff Ed Callahan: D. F. Deaton, Bill Johnson, Andrew Johnson, Dock Smith, Billy Deaton, Willie Johnson, Bob Deaton, Elsha Smith, Asbury McIntosh, Dan and Tom Deaton. A motion for bail will be heard before Judge Benton Thursday.

Judge Benton has announced that he will devote the entire month of January, if necessary, to the trial of the cases, which were transferred from Breathitt county by Judge C. D. Newell.

Tuberculosis Day.

Gov. McCreary has issued a proclamation designating October 27 as Tuberculosis Day and asking the people to earnestly urge in making every proper effort to spreading every form of information as to the character, prevention and cure of tuberculosis.

The Governor says reports of the Bureau of Vital Statistics for the first seven months of 1911 show 6,085 cases of tuberculosis were under treatment by physicians in Kentucky and during the same period 3,325 deaths were reported.

Mrs. W. R. Cassidy is visiting in Winchester.

J. D. Snowden made a flying trip to Winchester Saturday.

Dan F. Blanton returned to Hamilton, Ohio, Monday, after a ten days visit to relatives near here.

Mr. and Mrs. Asa Snowden visited the latter's parents, Mr. and Mrs. A. J. Barnett near here Saturday and Sunday.

Curt Bowman had a mare to drop dead Friday evening after having worked her during the day and while at the brook to drink.

In the absence of an overseer appointed by the Court, the neighbors are working the road in this vicinity. It is encouraging to know that our people will take hold of public affairs even when they do not have to.

The assessors of most Kentucky counties report a great decrease in dogs listed this year. This is encouraging, less dogs and more hogs and sheep is more in the right direction.

A DOZEN REASONS

Why I Should Vote

FOR NEXT PRESIDENT WILSON.

BECAUSE:

1. He is the only candidate for President who represents the real, the vital and the effective progressive forces in this country.
2. He stands for tariff revision downward in the interest of lower prices and the elimination of monopoly.
3. He stands for trust legislation which will prevent the control of prices through any sort of monopoly.
4. He stands for the income tax and believes that wealth should share the burdens as well as the blessings of government.
5. He stands for the rights of labor and the protection of the man who earns his bread by the sweat of his brow, as shown in his record as Governor of New Jersey.
6. He stands for the revival of our merchant marine, and for the government encouragement of agriculture, industrial and vocational education.
7. He trusts the people and believes that the governed should govern, and that Senators should be chosen by the people.
8. He faithfully performs in office the promises made out of office.
9. He will "clean house" at Washington as he has "cleaned house" in New Jersey.
10. He preaches and practices clean politics, and practices it effectively. He unalterably opposes machine politics and the rule of the bosses.
11. He stands for legitimate big business every day, but for monopoly never.
12. As Senator LaFollette says: "He approaches every problem with the solemn promise to be really, in the highest sense, a servant of the people."

Less than two weeks remain before the election. At present there is every indication of Democratic success, but things can happen in that short time to turn the tide. We do not believe it possible that anything can turn the tide against Wilson, but we should take nothing for granted. Every Democrat who loves his country and his party should get on the firing line and remain on duty until the close of the polls Nov. 5th.

Col. Roosevelt expects to break the solid south, but it is difficult to see how he will even dent it.

The Republican Campaign Committee has issued a calamity howl which tries to prove that the election of Cleveland caused the panic of 1893 and the consequent hard times which followed. Of course this statement is false. Legislation by the Republicans which required the purchase of a large amount of silver each month and other equally as bad, together with a faulty financial system, caused the upheaval which Cleveland was powerless to prevent.

Arguing from such untenable grounds, we suppose this aggregation will charge the panic of 1907 to the Democrats although Roosevelt was president and the Republicans were in control of every branch of the government. Then, as before, it was bad legislation and an archaic banking and currency system which were responsible.

This country is at present enjoying unparalleled prosperity in spite of, not because of, Republican administrative policies. A gracious Providence has given the husbandman great return for his labor. The gold production is \$96,890,000 this year, larger than ever before in the history of the country, save in one year only, and the abundant diffusion of prosperity thereby caused has put the whole machinery of business in motion.

It is just as reasonable to claim that the rains and the reasonable weather are due to Republican rule as that it is responsible for the present prosperity. The

high protective tariff would have produced another panic but for these natural causes. The calamity howlers are only howling for another chance at the bone.

"The Appeal to Reason" should change its name to "Appeal to Ignorance". In one paragraph it says "\$2,000 per year and six hour days." In another paragraph it says in substance: "There are thirty millions of laborers working ten hours a day producing thirty billion dollars of wealth." If thirty million workers at 10 hours a day produce only thirty billion of wealth, then each laborer produces only \$1,000 of wealth or just one half what the "Appeal to Reason" (?) would have them receive when working only six hours a day. Still further, when you cut down the time of labor two fifths as this Socialist paper says, should be done, you cut down the wealth produced a two-fifths. Thus instead of each laborer then producing \$1,000 per year as he now does, he would only produce \$600. So you see according to the "Appeal to Reason" (?) the editor wants the laborers to produce \$600 and receive therefor \$2,000. Such arguments are not appealing to reason and we think the name of this paper should be changed to "Appeal to Ignorance" to conform to the real efforts of its editor.

Secretary Wilson's book on nailing bees and what to do for them ought to be interesting reading for a Presidential year.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

One man was killed and two seriously injured in Estill county last week while working on the railroad. Work on this road seems to be a very dangerous job and laborers are said to be getting very shy of contracts.

The falling leaves have littered up many beautiful yards and they are being cleared away and burned on the streets. In some cities the burning of leaves and other rubbish is forbidden as at this time of the year the pretice becomes a nuisance.

A horse attached to a buggy ran away with Franklin Margison near the bridge two miles south of this city Sunday and threw him and his lady friend out when the buggy was upset. The occupants escaped injury but the buggy was completely demolished.

MAN AND THE SOIL.

Dr. R. V. Pierce of Buffalo, author of the Common Sense Medical Adviser, says "why does not the farmer treat his own body as he treats the land he cultivates. He puts back in phosphate what he takes out in crops, or the land would grow poor. The farmer should put back into his body the vital elements exhausted by labor, or by ill-health induced by some chronic disease." Further, he says, "the great value of my Doctor Pierce's Golden Medical Discovery is in its vitalizing power. It gives strength to the stomach and purity to the blood. It is like the phosphates which supply nature with the substances that build up the crops. The far-reaching action of

Doctor Pierce's Golden Medical Discovery is due to its effect on the stomach and organs of digestion and nutrition. Diseases that begin in the stomach are cured through the stomach. A bilious spell is simply the result of an effort made by the liver to catch up when over-worked and exhausted. I have found the 'Discovery' to be unsurpassed as a liver regulator and rich blood-maker."

Miss Lottie Knisely of Perth, Kansas, says: "I will here add my testimony of the effectiveness of your remedy upon myself. I was troubled with indigestion for two years or more. Doctored with three different doctors besides taking numerous kinds of so-called 'stomach cures' but received no permanent relief. I was run down, could not sleep at night with the pain in my chest, caused by gas on the stomach. Was weak, could eat scarcely anything although I was hungry nearly all the time. About one year and a half ago I began taking your 'Golden Medical Discovery,' and after having taken several bottles am nearly cured of stomach trouble. Can now eat without distress and have gained fifteen pounds in weight. I thank you for your remedy and wish you all success in your good work."

LIGHT ON ANCIENT PANIC ARGUMENT

History Demolishes Republican Claim That Democrats Make Hard Times.

1893 WAS UNDER HIGH TARIFF

Every Panic Since the Civil War Has Been a Republican Panic—Lessons From 1907 Upheaval.

The enemies of Democracy are making their anticipated and regularly recurring howl—they are predicting hard times if Woodrow Wilson is elected president on a Democratic tariff revision platform.

The Republicans are claiming all credit for present prosperity.

A glance backward will be worth while at this time.

Every panic since the Civil war originated and developed under Republican rule.

The Republican campaign textbook of 1904 devoted much space to the many business disasters occurring from July, 1893, to November, 1894, intending the public to attribute them to the inauguration of President Cleveland in March, 1893. But the Republicans fail to refer to the fact that the Republican tariff law was in force during more than twelve of the sixteen months of greatest business disasters. This fact must be remembered—the McKinley tariff bill became a law Oct. 6, 1890, and the first indications of the 1893 panic were seen Nov. 11, 1890, scarcely more than thirty days after the McKinley law was passed, and the panic reached its worse stage in 1893 and early in 1894, during which time the McKinley law was in full force.

Millions Lose Their Jobs.

It may be recalled, too, that the panic of 1873 under Republican rule and in a period of twelve years of high tariff taxation, was most disastrous. It continued five years, 3,000,000 workmen were thrown out of employment and bankruptcy ran riot.

In 1890 the McKinley high tariff bill was passed, and there were 10,673 failures, followed by 12,394 in 1891. The tariff was raised to nearly 50 per cent, but wages stood still or declined while the cost of necessities advanced.

The most serious labor troubles in the history of the United States have occurred under Republican high tariffs.

Some Lessons From 1907.

The Republican panic of 1907 furnished another forceful refutation of the Republican claim that Democratic administration and hard times, lower tariffs and panics have been co-existent.

In 1907, in the midst of prosperity, thousands of leading banks, with hundreds of millions on deposit, suspended cash payments. The trouble began as a result of a struggle between great New York financial institutions for business.

The New York post in October, 1907, said:

Condemn Themselves.

"The certain and significant thing is that it will be known as a Republican and high tariff panic. Protest as Republicans may, they will be held responsible. Out of their own mouths the Republican party and the Dingleyites will stand condemned. They fixed in 1896 the standard by which they cannot escape being judged. In the party platform of that year they referred to the panic of 1893, and the hard times following, squarely to charge up the entire accountability to the party in control of the national government, and the political interference was stated with merciless logic: 'Every consideration of public safety and individual interest demands that the government be rescued from the hands of those who have shown themselves incapable of conducting it.'"

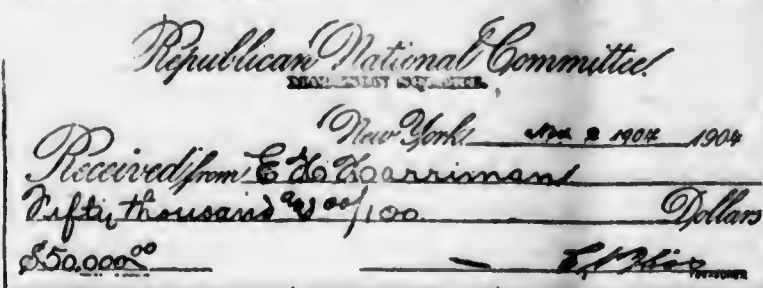

"Now, what are the Republicans going to do when the Democrats hand them back their poisoned chalice? ... A great emergency has come and the high tariff is seen to be of no avail whatever. It was to keep us all right and prosperous."

"Because the country has just got over the results of a Republican panic the president and his friends are urging us to perpetuate the Republican administration," says the Philadelphia Record.

Business Depression.

"As soon as business was checked five years ago the steel corporation, which was encouraged by Mr. Roosevelt to swallow the Tennessee con-

man's \$50 00 For T. R.'s Fund

Time and again Colonel Theodore Roosevelt, the third term party's candidate for president of the United States, has stated that the famous \$240,000 raised by the late E. H. Harriman in the fall of 1904 was for use in the New York state campaign. He also declared most positively a few weeks ago that he had ordered Chairman Cortelyou of the Republican national committee, not to accept any money from the Standard Oil company in that campaign and to return it if any had been accepted.

On Monday, Sept. 30, C. C. Tegethoff, secretary to the late E. H. Harriman, produced the above receipt of the Republican national committee, signed by Treasurer Cornelius N. Bliss, for Mr. Harriman's individual contribution of \$50,000 to this fund, proving conclusively that it was used in behalf of Mr. Roosevelt's candidacy. The day following John D. Archbold, president of the Standard Oil company, produced the documentary proof that his company did give \$10,000 to Roosevelt's campaign fund and that it never was returned.

then its most potent competitor, drew its first and about half its workmen out of employment. Other industries did the same thing. ... There was an extensive stoppage of mills in Philadelphia.

The Republican candidate for congress in the Kensington-Richmond district is using the 'soup houses of 1893' as a means of scaring the wage earners from voting the Democratic ticket. Those soup houses existed under the McKinley tariff. But there have been more recent ones. After 1907 there were soup houses in the Kensington-Richmond district, and everybody who was charitably disposed was begged for contributions to feed the people who were out of employment."

REPUBLICAN HOPE RESTS IN WILSON

Gov. Burke Declares for Democrat and Gives His Reasons.

By JOHN BURKE,
Governor of North Dakota.

The election of Governor Wilson is the only thing that can save the Republican party. Four years of President Taft has split it in two. We have no reason to believe that he will be any different or that his second administration, if he is re-elected, will be any more satisfactory to the people than his first. His re-election will mean the division of the Republican party into many warring factions, which can only result in final dissolution of all.

The end will come quicker and just as certain if Roosevelt is elected, for he is no longer a Republican, but is the leader of a new party, at war with the Republican party, as it is with the Democratic party. On the other hand, if Wilson is elected the Roosevelt party will perish; the Republicans will reorganize their party, purge it of the baneful influence of corporate power and greed and make it again the grand old party it was in the days of Lincoln.

FACTS WORTH REMEMBERING

John D. Archbold, for the Standard Oil company, gave \$100,000 to Roosevelt's campaign fund in 1904 but refused to prosecute the harvester trust more, which was demanded.

J. P. Morgan of the steel trust and other interests gave the Roosevelt fund in the same year \$100,000, and did give up \$50,000 more.

Mr. Roosevelt furiously prosecuted the Standard Oil company, but he refused to prosecute the harvester trust and the steel trust and gave the steel trust permission to absorb its only serious rival.

George W. Perkins of the steel and harvester trusts gave \$48,000 of the New York Life insurance company's money to Roosevelt's campaign fund, and refunded it when the fact became public.

Wonder if Emerson was gazing upon a moose calf when several decades ago he wrote: "I am the owner of the sphere. Of the seven stars and the solar year."

WHY NOT ELECT WOODROW WILSON

Chicago Post, Influential Republican Paper, Asks Its Readers a Leading Question.

FRAUDS OF PRESENT REGIME

Says the Tariff Has Been Too High for a Generation, and Must Be Lowered.

The Chicago Post, an influential independent Republican newspaper, propounds this question to Republicans: "Why not Wilson?"

"This question is addressed particularly to Republicans. Governor Wilson suits the Democrats down to the ground, suits all Democrats who are worthy to be called Democrats. But in an emergency like this, why should not Wilson suit a large part of the Republicans as well?"

"Why not Wilson?"

"Governor Wilson is a thoroughbred American gentleman, not only in the accident of birth, but in his every ideal, impulse and principle. That should be the first requirement of every presidential candidate."

"Governor Wilson is a tried and trustworthy executive. His brilliant record as governor of New Jersey proves that."

"Governor Wilson is an eminently sane and sensible man. He is an eminently honorable man. He has dignified every place which he has held. He has performed a splendid public service by lifting the present campaign out of the mire of mudslinging with which Roosevelt began it."

"In every personal characteristic, Governor Wilson is equipped to be any man's president, without regard to whether that man is a Democrat or a Republican. What, then, of his political qualifications?"

"Governor Wilson is, and always has been, a sensible Democrat, but he is not and never has been a silly, violent partisan."

"Governor Wilson stands for honesty and efficiency in federal administration. So do all save those who profit by graft and inefficiency."

"Governor Wilson stands for the curbing of trusts and monopolies. So do all, except monopolists and their defender, Theodore Roosevelt."

"Governor Wilson stands for a prompt and steady downward revision of the tariff. So do nine-tenths of the people of the United States."

"Governor Wilson believes in a more radical tariff revision than do a large number of the rank and file of Republicans. But Governor Wilson is the only candidate who if elected will permit the revision of the tariff at all."

"The tariff has been too high for a generation. Is it not better to take a chance at getting it too low—according to Republican standards—than to let this known fraud of the present regime continue for another four years to rob the public?"

"Why not Wilson? He will give an honest, a dignified, a capable administration. He will respect the constitution. He will see that the tariff is revised downward. He will curb trusts. He will serve the people."

"Why not Wilson?"

Louis D. Brandeis performed a real public service when he quoted the records to show that George W. Perkins is and always has been an enemy of union labor.

Farm Drain Tile

Make Your Wet Land Productive.

By the use of drain tile you can turn that low, wet, useless, swampy field into the most productive spot on your farm. Good tile, properly placed, not only carries off surplus water, it admits air to the soil and makes it easy to work. It improves any soil. The increase in the value of the land is many times the cost of the tile. The first year's crop from tiled land pays for it. Any body can do the work successfully.
